

“Try on my Shoes”

An Interactive workshop using a comprehensive/holistic, person-centered, family focused approach in a systems driven community for each level of personnel in various organizations to observe, assess, dissect & gain hands on understanding and experience on the process of providing evidence based services through the prospective of another’s experiences that has the same overall goal Yet a different path to achieve it (organizations, roles, task, responsibilities, deadlines, objectives, interventions, strengths and challenges)

These activities will allow attendees from various organizations to interact, build rapport, discuss and exchange ideas, challenges, strengths, opportunities, understand processes and procedures, strengthen alliances, as well as building agency/provider consumer resource base and partnerships, while developing Best Practices together to assure ALL youth and their families receive quality care that empowers individuals, educates and strengthens families and in turn makes a positive impact within the communities.

*Various Skits

*Role-plays

*Individual/group activities
